SOAR Adaptive Module (SAM) UV LASER Launch

Submitted by dwalker on Sat, 2011-08-20 14:08

[1]

SAM UV Laser launch inside the SOAR dome for the first time on January 28, 2011, at 00:30am. The laser is pointed at a piece of paper attached to the dome, to produce the fluorescent violet light, that is lighting the dome. This is another important step forward in getting the SAM LGS system online.
